| **7** | **Application Procedure** | 1. Students **must** apply in [NUS Education Records System (EduRec)](http://www.nus.edu.sg/edurec) in order to proceed with module mapping, submission financial aids application and for GRO to nominate you to the host university to participate in the summer programme.  
2. Students **NOT** holding Chinese passport - please apply online as ‘self-supporting students’ to host university directly through E-application at [http://iso.fudan.edu.cn](http://iso.fudan.edu.cn) using programme code 166996. Refer to [http://iss.fudan.edu.cn/pages/36/24](http://iss.fudan.edu.cn/pages/36/24) for details of application materials and application procedure.  
3. **Students holding Chinese, Hong Kong, Macau or Taiwan passport** - please apply at [http://iss.fudan.edu.cn/register](http://iss.fudan.edu.cn/register).  
4. Accept both the EduRec offer as well as the host university offer to confirm your participation in this programme. |
| **8** | **Module Mapping** | Students interested in obtaining credit can start the module mapping process after you apply in EduRec and accept the offer for the programme. Module mapping request is subjected to approval from the Faculties. [Click here](http://www.nus.edu.sg/edurec) for a step-by-step guide on applying for module mapping. Also note the following:  
A total of 12 MCs from a maximum of 2 overseas summer/winter and research programmes can be mapped without having to pay NUS tuition. Additional MCs mapped will be subjected to Special Term fees. For details, visit the [Registrar’s Office website](http://www.nus.edu.sg/registrar). |
| **ADDITIONAL INFORMATION** | **9** | **Visa Application** | You will require X2 visa (for a stay of lesson more than 180 days) to enter the China and participate in this programme. The documents you require for your visa application will be provided after the host university accepts you and you have paid the programme fee.  
Please refer to host university’s website on visa requirement at [http://iss.fudan.edu.cn/pages/42/21](http://iss.fudan.edu.cn/pages/42/21).  
<p>| <strong>10</strong> | <strong>Travel Advisories</strong> | Visit the <a href="http://www.mfa.gov.sg">MFA website</a> for travel advisories on various countries from the Singapore government. |
| <strong>11</strong> | <strong>Student Insurance</strong> | <a href="http://www.nus.edu.sg/studentinsurance">Insurance coverage for official NUS trips</a> is provided for your participation in this programme. |</p>

Fudan University International Summer Session 2019

Ms. YE Meiqian
Tel: 86-21-55664509
Fax: 86-21-55664890
Email: iss@fudan.edu.cn
Website: http://iss.fudan.edu.cn
Mailing Address: Room 408, 600 Guoquan Road, Shanghai, 200433, China

Duration: July 4-August 3, 2019
Application Deadline: May 26, 2019
Fudan University was established in Shanghai in 1905, first known as “Fudan Public School”. Mr. Ma Xiangbo, the founder, was a renowned educator at the time, who was hoping to strengthen China through education. Dr. Sun Yat-Sen, the founding father of China, acted as the director of the board of trustees. Since its establishment, Fudan has been regarded as a symbol of China seeking enlightenment from the Western world. Along the 113 years since its establishment, Fudan has been distinguished as the leading globally-focused, research driven university in China. This recognition is reflected by the fact that Fudan has consistently been ranked among the top three universities in China and 44th worldwide according to the 2019 QS World University Rankings. Nowadays, Fudan continues its pursuit of excellence and commits to powerful research and education.

Fudan is a member of the C9 League, Universitas 21 and Association of Pacific Rim Universities (APRU). It is composed of four campuses: Handan, Fenglin, Zhangjiang, and Jiangwan. Fudan offers 70 undergraduate majors, 243 master degree programs, and 154 doctoral degree programs. Fudan enrolls 33,445 full-time students, including over 2,000 international students. Fudan has a high-level research faculty of over 2,800 full-time teachers and researchers, 46 academicians of the Chinese Academy of Science and Engineering, and 94 professors of the Changjiang Scholars Program.
Fudan University International Summer Session 2019 (July 4-August 3) will provide a 4-week course study and cultural experience to students from all over the world. Students will have the opportunity to get to know China, experience Shanghai and be part of the Fudan community. This program will help you achieve multicultural understanding, establish a global vision, and get connected with peers from all over the world.

Fudan University International Summer Session 2019 offers 27 content courses, 3 different levels of Chinese language courses and 2 PE courses. In addition we offer historical and cultural visits. The content courses will cover a range of topics in History and Culture, Society and Politics, Business and Economy, Law and Science and Technology. Each content course is designed as a 39-credit-hour course (except for the one-credit course which is 18 credit hours), each level of Chinese language as a 40-credit-hour course (2 credits), and each PE course as an 18-credit-hour course. Students can choose 1-3 content courses, and the Chinese language courses and PE courses are optional. After successful completion of the course study students will be awarded a program certificate and an official transcript from Fudan University. Students who wish to transfer Fudan International Summer Session credits back to their home institutions are advised to consult with the appropriate academic authorities at their own institutions in advance.

You will find Fudan and Shanghai both wonderful places to learn and enjoy during the summer. Our faculty, staff and students all look forward to welcoming you to Shanghai, the Pearl of the Orient.

Duration: July 4-August 3, 2019
Application Deadline: May 26, 2019
Application Fee: CNY 400
Tuition: CNY 15,180
Eligibility

1. College students above 18 years of age with sufficient English proficiency.

2. The general state of the applicant’s health should be good enough for him/her to pursue the course of study at Fudan.

Application Materials

1. One copy of passport (personal information page — passport must be valid for your entire stay in China).

2. Graduation certificates or documents proving student status at current university. Certificates or documents in languages other than Chinese or English must be translated and notarized.

3. Transcripts of academic records. Transcripts in languages other than Chinese or English must be translated and notarized.

4. One copy of TOEFL IBT (a score of 85 or above)/IELTS (a score of 6.5 or above), or other materials proving a corresponding level of English. Native English-speakers or college students taking an English-taught program are exempted from this requirement.

☆ If necessary, the university will require applicants to submit extra materials.

☆ After you are accepted, please download the Application Form (PDF file) from the Online Application System, print it out and sign it. Upon registration on campus, please submit the form and a copy of your passport.

The application fee and materials are non-refundable.

How to Apply

1. If you are an international student holding a foreign passport, please log onto http://iso.fudan.edu.cn, and enter the Online Application System through E-Application.

   The online application procedure is as follows: Registering with your email → Entering and completing the online application → Submitting your application → Paying the application fee in the Online Application System → Waiting for the result → Application is completed.

   Program code: 166996 (It is for self-supporting students. If you will come as an exchange student please ask your coordinator for a different code.)

   Please take extra care in filling in the application form online. You will need to enter your name exactly as it appears on your passport and be careful about other details such as your passport number and birth date. Once you have submitted the application, it will not be possible to change. If you fill in the wrong passport number or wrong name, you won’t be able to apply for a visa with the admission and visa documents issued.

2. If you are a Chinese citizen from mainland China, Hong Kong, Macau and Taiwan, please apply at iss.fudan.edu.cn. We will evaluate your application and email you our decision.
Apply from Exchange Partners

Fudan International Summer Session is open to students from Fudan’s university-level exchange partner universities worldwide. For Fudan’s university-level exchange partnership, you can consult your home institution.

Students from Fudan’s university-level exchange partner universities could apply as:

1) Shanghai Summer School Scholarship student:
The Shanghai Summer School Scholarship targets students with passports from the North American Zone. Besides a tuition waiver, the scholarship covers free on-campus housing, health insurance during the session and all the activities of the session. The international return air tickets, local living expenses and pocket money should be covered by the student.

To apply for the Shanghai Summer School Scholarship, your home institution coordinator will need to email nominations to iss@fudan.edu.cn before you can proceed with the online application process.

2) Exchange tuition-waiver student:
Based on bilateral exchange agreements, Fudan accepts Fudan’s university-level exchange partners’ nomination of students to join the ISS program with a tuition waiver.

* For coordinators of Fudan’s partners: Due to the course load of the ISS program, 2 students enrolled in the ISS program will be equivalent to 1 enrolled for a one-semester exchange stay.

Your home institution coordinator needs to email nominations to iss@fudan.edu.cn before you can proceed with the online application process.

3) Self-supporting student
Self-supporting students from Fudan’s university-level exchange partners will receive a 10% discount for tuition if we are officially notified by partner universities. Please ask your home institution coordinator to email your nomination to iss@fudan.edu.cn before you proceed with the online application process. If accepted, you will receive your 10% discount when you pay the tuition.

1. “Lecture Series on Chinese Economy and Society” is a course of 2 credits. Please note that these lectures are part of the summer camp organized by the School of Economics. Therefore the number of summer session students that can enroll in this course is limited (around 20). All the lectures of the course will start on July 15 and finish on July 26. Summer session students who choose the course should participate in all the lectures while the visits and activities of the camp are not open to summer session students. Choosing this option means no enrollment in any other content or language course of the summer session due to time conflict.

2. The Chinese language course is for students holding foreign passports only.

Introduction to Modern Chinese History

LI Jia
Professor
Department of History, Fudan University

This course will provide you with a basic grounding in the subject, which is a very important aspect of pre-modern Chinese history. The readings will introduce you to a series of reforms carried out by different social and political groups in the 19th- and early 20th-century China. This period was tumultuous and in imminent danger of falling apart. The course also examines the international relations between China and other major countries during the first half of the 20th century and help the students understand the historical significance of events before the end of the democratic era, and the discourse of China modernization after the establishment of New China in 1949.

Natural History of Chinese Teas

LI Hui
Professor
School of Life Sciences, Fudan University

This course introduces the history of teas in China, and the classification of the teas into different categories. This course aims to provide a broad picture of the history, chemistry, medicine, and physics of Chinese teas as well as opportunities for the students to physically taste different teas in the practical part of the course.

History of Shanghai in the Modern Era

SUN Qing
Associate Professor
Department of History, Fudan University

The course focuses on the emergence of Shanghai as one of the largest and most dynamic cities in modern China through an exploration of the city’s economic structure and development, as well as local politics, taking into account the influence of factors like population diversity, western influence, and Shanghai’s unique historical situation. All of the important geographical factors like early trade links and the role of treaty ports and foreign influence in the history of Shanghai will be analyzed. This serves as an underpinning for discussion and analysis.

A Culture Exploration Tour: Miraculous Traditional Chinese Medicine
ZHANG Tiansong
Professor
Shanghai Medical College of Fudan University

The course aims at introducing the culture system of Traditional Chinese Medicine (TCM), including the basic theory (yin-yang and five elements); basic skills and basic manipulation (acupuncture, massage, cupping, etc.). It would present and discuss about Chinese mythologies such as “Pan Gu separating heaven and earth” and “Shennong tasted hundreds of herbals”, basic concepts of TCM like Yin-yang, basic skills of TCM such as tongue diagnosis, acupuncture and moxibustion, and so on. Students can also intuitively learn and master the basic knowledge related to TCM like Yin-yang, basic skills of TCM such as tongue diagnosis, acupuncture and moxibustion, and so on. Students can also intuitively learn and master the basic knowledge related to TCM and its Indigenous Response.
This course introduces students to the background of China’s political institution and culture and provides an overview of the relationship between China’s media and politics in a global context. By the end of the course, the students will have acquired a broad perspective of China’s political communication and gain familiarity with China’s media system and its political consequences. Four general topics will be explored: media and China’s revolution, media policy; trajectory of media reform, media and international relations for each topic, the course will be conducted with two lectures and one seminar. The students will be divided into several groups, each of which will give a presentation on each topic.

Prof. SHEN Guolin, Associate Professor, School of Journalism and Communication, Fudan University

This issue-driven, student-centered course discusses both the theories and practices regarding social networking and converged/integrated communication via social media today. This course also examines interrelationships among media, communication, politics, economy, technology, business, social institutions, and individuals, as well as a variety of issues concerning the role and influence of social media and social networking in the society as a whole. This course is designed for students from various disciplines or programs of study.

Prof. WANG Hao, Assistant Professor, Center for American Studies, Fudan University

This course aims to help students to get some basic knowledge about American politics and foreign policy. It includes the introduction of American political thoughts, political institution, political culture and political process; meanwhile, it will also tell students how American foreign policies are made, their strategic goals and ways to achieve these goals. In sum, this course will deepen students’ understanding of America and its relations with the outside world, thus broadening their international horizon.

Dr. WANG Hao graduated from the School of International Relations, Renmin University of China in 2011 and received a bachelor’s degree in Law. From 2014 to 2015, he was a fellow at the University of California, San Diego. He has published extensively on globalization, cities, and regional development. He has co-authored and co-edited several books including As Borders Bend: Transnational Spaces on the Pacific Rim (Somerov & Littlefield, 2005), Shanghai Rising: State Power and Local Transformations in a Global Megacity (University of Minnesota Press, 2009; Chinese edition, 2009), and Global Cities, Local Streets: Everyday Diversity from New York to Shanghai (Routledge, 2015; Chinese edition 2016; Korean edition 2017). He has consulted for the Asian Development Bank, the World Bank, the Brookings Institution, and the Organization of Economic Co-operation and Development (OECD).

Dr. YANG Jinmian, Assistant Professor, Department of Psychology, Fudan University

This course is designed to introduce students to the broad field of psychology. We will cover topics such as perception, attention, memory, language, emotion, motivation and personality etc. Students will be introduced to the basics of the scientific method and are encouraged to come up with their own empirical questions about psychology. At the end of the class, you will have a solid understanding of basic concepts, methods and results in the study of this field and will be able to appreciate and critically evaluate the basic meaning, if not every detail, of novel findings in psychology and neuroscience.

Dr. JINMIAO YANG received her PhD in psychology from the University of Massachusetts, Amherst, and was postdoctoral fellow of the University of California, San Diego. Her main research interests include eye movements during reading Chinese and English and has published about 20 papers in English.

Dr. YANG Jinmian is Dean and Director of the Center for Urban and Global Studies and Paul Raether Distinguished Professor of Social Urban Studies and Socioty of Trinity College in Hartford, Connecticut, and Guest Professor in the School of Social Development and Public Policy of Fudan University. He has published extensively on globalization, cities, and regional development. He has co-authored and co-edited several books including As Borders Bend: Transnational Spaces on the Pacific Rim (Somerov & Littlefield, 2005), Shanghai Rising: State Power and Local Transformations in a Global Megacity (University of Minnesota Press, 2009; Chinese edition, 2009), and Global Cities, Local Streets: Everyday Diversity from New York to Shanghai (Routledge, 2015; Chinese edition 2016; Korean edition 2017). He was instrumental in creating and is currently a Senior Contributor for the “China & the World” series at The European Financial Review. He has consulted for the Asian Development Bank, the World Bank, the Brookings Institution, and the Organization of Economic Co-operation and Development (OECD).

Social Media and Social Networking

Dr. HAN Gang, Assistant Professor, School of Journalism and Communication, Fudan University

This course discusses both the theories and practices regarding social networking and converged/integrated communication via social media today. This course also examines interrelationships among media, communication, politics, economy, technology, business, social institutions, and individuals, as well as a variety of issues concerning the role and influence of social media and social networking in the society as a whole. This course is designed for students from various disciplines or programs of study.

Prof. HAN Gang obtained his PhD in Mass Communication from S.I. Newhouse School of Public Communications, Syracuse University in 2001. He has been teaching Mass Communication and Social Media courses at Fudan University since 2006. He received the best teacher award in 2014 and 2015. He is also the translator of Copyrighting Culture: The Publication Award in 2008. He is also the Program Director of Shanghai Social Sciences Academic Press, 2007), which won the first class prize of social science in Shanghai. He has published extensively on globalization, cities, and regional development. He has co-authored and co-edited several books including As Borders Bend: Transnational Spaces on the Pacific Rim (Somerov & Littlefield, 2005), Shanghai Rising: State Power and Local Transformations in a Global Megacity (University of Minnesota Press, 2009; Chinese edition, 2009), and Global Cities, Local Streets: Everyday Diversity from New York to Shanghai (Routledge, 2015; Chinese edition 2016; Korean edition 2017). He has consulted for the Asian Development Bank, the World Bank, the Brookings Institution, and the Organization of Economic Co-operation and Development (OECD).

Psychology and Life

Prof. TIAN Feng, Associate Professor, School of Social Development and Public Policy, Fudan University

This course provides an overview of the application of social networks in Chinese society. Topics covered in this course include the meaning of social networks in Chinese, its cultural, institutional, and structural roots, its everyday practice, as well as its application for contemporary economic and social life. Through the course, students will obtain a richer understanding of Chinese social networks and its relevance to contemporary Chinese society.

Prof. TIAN Feng obtained her BA from Nankai University in China, MS from the University of Wisconsin-Madison and PhD from Duke University. She is working as an associate professor in the School of Social Development and Public Policy, Fudan University.

Social Networks and Chinese Society

Prof. XINGMING CHEN, Professor, Center for Urban and Global Studies, Trinity College

This course aims to provide a broad and balanced picture of China’s even growing presence and influence in the developing world, before and since the launch of its Belt & Road Initiative (BRI) in 2013. This course will expose students to readings about China in the developing world from Chinese and international sources and perspectives that shed light on the diversity and complexity of this topic. A closely related objective of the course is to encourage students to think critically about the strengths and lessons of China’s development model and experience that other developing countries should assess and learn in fashioning their own development paths.

Prof. XINGMING CHEN is Dean and Director of the Center for Urban and Global Studies and Paul Raether Distinguished Professor of Social Urban Studies and Socioty of Trinity College in Hartford, Connecticut, and Guest Professor in the School of Social Development and Public Policy of Fudan University. He has published extensively on globalization, cities, and regional development. He has co-authored and co-edited several books including As Borders Bend: Transnational Spaces on the Pacific Rim (Somerov & Littlefield, 2005), Shanghai Rising: State Power and Local Transformations in a Global Megacity (University of Minnesota Press, 2009; Chinese edition, 2009), and Global Cities, Local Streets: Everyday Diversity from New York to Shanghai (Routledge, 2015; Chinese edition 2016; Korean edition 2017). He was instrumental in creating and is currently a Senior Contributor for the “China & the World” series at The European Financial Review. He has consulted for the Asian Development Bank, the World Bank, the Brookings Institution, and the Organization of Economic Co-operation and Development (OECD).

SOCIETY AND POLITICS
BUSINESS AND ECONOMY

Topics in Development Economics

XIE Yiqing  
Assistant Professor  
School of Economics, Fudan University

This course is designed to portray some of the facts in a broad range of developing countries. It covers several topics in recent development economics literature with a focus on property rights, institutions, and corruption in low-income countries. It examines how these institutions evolve with income. It introduces a variety of methodological approaches to address a number of empirical questions, such as what is the value of political connections in Indonesia, does third-party reporting reduce pollution in India, and why some countries have more complicated government barriers whereas others do not. The course aims to build up students’ critical-thinking skills through reading the most recent empirical development economics literature and participating in class discussion. Students are expected to be able to conduct independent empirical study on their own after the course.

Dr. XIE Yiqing received her PhD in Economics from the University of Colorado at Boulder in 2012. She has been teaching Economics at the University of Colorado at Boulder since 2015. Her research interests include international economics and foreign direct investment.

International Trade

XI'YANG  
Assistant Professor  
School of Economics, Fudan University

The purpose of this course is to help students understand the basics of international trade and the effects of various international-economic policies on domestic and world welfare, with an empirical focus on Chinese trade and foreign direct investment. The course will highlight sources of comparative advantage, gains and losses from trade, the impact of trade on economic growth, and effects of trade policy interventions such as tariffs, quotas, antidumping, export subsidies, and export taxes. In doing so, it will emphasize both theoretical (analytical) models as well as empirical studies of how well such models fit real-world data. Moreover, the course will frequently compare and contrast alternative theories/conceptions of the nature of international trade and the gains or losses thereof. Understanding the economic intuitions behind the theoretically demanding models as well as thinking critically about the assumptions behind the theories and how well they fit actual trading economies will be a major focus. The instructor will try to strike a balance between the “theoretical” and the “intuitive” margins of the course material. The extensive margin refers to an overview of various topics in the field of international trade, while the intensive margin means technical training and empirical real-life cases in China on selected topics.

Dr. XI’YANG received the PhD in Economics from the University of Colorado at Boulder in 2014. He has been offering the English-instructed course of Development Economics at Fudan University since March, 2015. His research interests include the intensive margin and empirical real-life cases in China.

e-Business in China

DAI Weihui  
Professor  
Department of Information Management and Information Systems, School of Management, Fudan University

This course aims to help students understand the development situation, distinctive characteristics, and application status of e-Business in China, to have a good command of e-Business fundamental knowledge, as well as to promote international exchanges and common understanding. The course content mainly includes the following three parts: (1) The development and status of e-Business in China; (2) Basic knowledge of e-Business and case study; and (3) Design of cross-border e-Business solutions. Through the analysis of both Chinese domestic cases and cross-border e-Business cases, this course will enable students to figure out the key points of e-Business customer analysis and business model design under different cultural backgrounds.

Dr. DAI Weihui received his PhD from the National University of Singapore University and an MBA at the University of Chicago. He has been teaching e-Business at Fudan University since 2011. His research interests include e-Business and e-Commerce, and he has published research in several international journals.

Industrial Organization

MO Chenshu  
Associate Professor  
Department of Economics, State University of New York (SUNY) at Albany

This course provides you with an understanding of the relationship between market structure, economic efficiency and social welfare. In particular, this course emphasizes the policy implications of economic theory through discussing antitrust cases.

The course starts by examining the efficiency effects under competitive or monopoly cases. Then, we will examine the efficiency implications of business practices used by dominant firms, including bundling, pricing, capacity expansion and product introduction. In the second part of the course, we discuss collusion, horizontal mergers and vertical mergers.

Prof. MO Chenshu earned his PhD in Economics from Boston University and an MPhil in economics and BSc in economics and finance from Nanyang University of Science and Technology. Before joining SUNY, he was an assistant professor of economics at Georgia Institute of Technology and an associate professor of Shanghai Jiaotong University. He also held visiting positions at Bank of Finland (Institute for Economies in Transition), Hong Kong Institute of Monetary Research and the Chinese University of Hong Kong. His research interests include empirical industrial organization, economic development, and applied economics. He has published papers in various peer-reviewed journals including International Economic Review, Journal of Econometrics, International Journal of Industrial Organization and Journal of Money, Credit and Banking.
One of the most disruptive events to the global order in recent history is that U.S. surpassed UK as the world’s largest economy in the last century. However, China is expected to outstrip U.S. as the world’s largest economy in the 21st century. For anyone who wants to be globally literate, a basic familiarity with this most dynamic and enormous economy is a must. What factors contribute to the rise of China? How to profit from this growing and huge market? How did/will the rise affect the rest of the world? What are the challenges undercutting its economic performance with emphasis on the unbalanced economic development and technology progress, which are believed to be the keys to future growth. In the fourth part, we identify economic players (governments and various types of firms) and their interactions. Then, we investigate human capital and related fields including Economic History Review, Journal of Economic History, Development Economics, and Urban Economics & Regional Science. She has published in the top journals in her related research fields, including Economic History Review, Journal of International Money and Finance, World Development, The Review of Development Economics, etc. Her current research interests focus on the bond market development in Pre-war Republican China (1912-1937) and the unbalanced regional development in Today’s China.

Pro. LI Dan received her PhD from Boston University in 2008. Her research fields include Economic History, Development Economics, and Urban Economics & Regional Science. She has published in the top journals in her related research fields, including Economic History Review, Journal of International Money and Finance, World Development, The Review of Development Economics, etc. Her current research interests focus on the bond market development in Pre-war Republican China (1912-1937) and the unbalanced regional development in Today’s China.

Pro. HO Chun-yu earned his PhD in economics from Boston University and his MPhil in economics and BSc in economics and finance from Hong Kong University of Science and Technology. Before joining SUNY, he was an assistant professor at economics at Georgia Institute of Technology and an associate professor at Shanghai Jiaotong University. He also held visiting positions at Bank of Finland (Institute for Economies in Transition), Hong Kong Institute of Monetary Research and the Chinese University of Hong Kong. His research interests include empirical industrial organization, economic development, and applied econometrics, the published papers in various peer-reviewed journals including International Economic Review, Journal of Economicometrics, International Journal of Industrial Organization and Journal of Money, Credit and Banking.

Dr. FANG Shuhong obtained her PhD from the School of Economics, Fudan University in 2005. She is currently an assistant professor in the Economics Department of the School of Economics, Fudan University. Her research field is macroeconomics. She teaches International Finance, International Finance, and mathematical economics and has published papers in academic journals such as Economic Research and World Economy. She has headed research projects funded by the National Natural Science Foundation and Shanghai Planning Office of Philosophy and Social Science. The “Macroeconomics” textbook authored by Dr. Fan and Prof. Yuan Zhigang won the first prize of Excellent Teaching Materials Award of Shanghai Excellent Universities (2015).

Dr. FAN Xiaoyan obtained her PhD from the School of Economics, Fudan University in 2005. She is currently an assistant professor in the School of Economics, Fudan University. Her research field is macroeconomics. She teaches Introduction to Investment Decisions, International Finance, and mathematical economics and has published papers in academic journals such as Economic Research and World Economy. She has headed research projects funded by the National Natural Science Foundation and Shanghai Planning Office of Philosophy and Social Science. The “Macroeconomics” textbook authored by Dr. Fan and Prof. Yuan Zhigang won the first prize of Excellent Teaching Materials Award of Shanghai Excellent Universities (2015).
A quick way to know a country is to stay in the country and interact with local people. However, acquiring a deeper understanding of a nation requires more effort. Communicating with intellectuals in the host country will be the most efficient way to understand a different culture from yours. The Lecture Series on Chinese Economy and Society is designed and provided by Fudan School of Economics to facilitate knowledge-building and equip you with a thorough understanding of the Chinese economy and society in the past, present and future.

The lectures will be delivered by top scholars in relevant research fields from Fudan University, Shanghai Jiao Tong University and LSE. There will be 25 90-minute lectures, which will all finish on July 26. Each lecture equals 2 credit hours. The students of FISS can choose to earn 2 credits by attending all the lectures. A paper on a lecture-related topic is required as the final assessment of this course. Please refer to www.econ.fudan.edu.cn/summercamp for the exact schedule of the lectures.

Instructors:
Instructors from home and abroad will be invited to give lectures in this course. For more information about the instructors please refer to www.econ.fudan.edu.cn/summercamp.

Tentative Speakers:

ZHANG Jun
Changjiang Professor
Dean of School of Economics
Fudan University

LIU Yu
Professor
School of Economics
Fudan University

WAN Guanghua
Professor
School of Economics
Fudan University

MA Debin
Associate Professor
Department of Economic History, London School of Economics

PENG Xizhe
Professor
School of Social Development and Social Policy
Fudan University

HO Chun-yu
Associate Professor
Department of Economics
Fudan University

LI Dan
Associate Professor
Assistant Dean of School of Economics
Fudan University

XIE Yiqing
Assistant Professor
School of Economics
Fudan University

MA Debin
Associate Professor
Department of Economic History, London School of Economics

ZHANG Xiaorong
Associate professor
School of Management, Fudan University

FENG Jie
Associate Professor
State University of New York (SUNY)

This introductory marketing course is primarily organized around the four elements of marketing mixes: product, price, place (distribution) and promotion. The course also covers marketing research methods, customer behavior, segmentation, targeting, differentiation, positioning, digital marketing and global marketing.

This is a preliminary course in finance major. The objective is to provide students with fundamental financial concepts and theories as well as the applications in making corporate financial decisions. It is also a pre-requisite of many advanced courses in the finance track, including Financial Markets and Institutions, Investments, Futures and Options, and Multinational Business Finance.

Dr. FENG Jie obtained his PhD from Marketing, Lubar School of Business, University of Wisconsin-Milwaukee, his master from Communication Management, University of Alabama Birmingham and his bachelor from Advertising and Journalism, Zhejiang University. He has worked as the teaching assistant in the University of Wisconsin-Milwaukee (2006-2010), and now works as an associate professor of marketing in State University of New York (SUNY) at Oswego. He published papers in journals like Journal of Business Theory and Practice, Journal of Interactive Marketing and was awarded with Lubar Doctoral Scholarship, which is the highest award for doctoral students in the Lubar Business School.

Dr. ZHANG got her PhD in Management Science and Engineering at Fudan University, her master’s degree in Computer Science and Engineering at Southeast University, and her bachelor’s degree in Computer Science at East China Normal University. She has worked as a visiting scholar at Columbia University (2008-2009) and MIT Sloan School of Management (2000).

Instructors: Instructors from home and abroad will be invited to give lectures in this course. For more information about the instructors please refer to www.econ.fudan.edu.cn/summercamp.
Diversity of the Healthcare Service in Shanghai

LAI Yanni
Professor
Shanghai Medical College of Fudan University

The course focuses on introducing the diversity and rapid development of healthcare service in Shanghai. Shanghai has a reputation for having the best medical facilities in Mainland China, serving its 25 million permanent population and residents from the other provinces. Even for expats, there is no worry in finding quality healthcare when needed. The healthcare system in Shanghai covers public hospitals, private hospitals, international hospitals or clinics for the foreigners such as Parkway and United Family hospital. The application of IT, including AI and mobile medical helps the rapid evolution of healthcare in Shanghai. For example, cloud hospital. The medical costs and mode of payment also differ from each other in general. It is accessible for different kinds of patients.

Dr. LAI Yanni is Vice Chief of the Medical Education Office at Fudan University an expert of NMEC and the group leader of OSCE as well as a certified professional of Clinical Medicine Science. Dr. LAI graduated from Fudan University in 2001. She has been working as an endocrinologist at Huashan Hospital and Vice Chief of the Medical Education Office at Fudan University since 2001 and was Vice Chief of the Education Department (2005-2010) and Assistant Chief of the Science and Education Department in Shanghai Health Bureau (2003-2005).

Foundation of Data Science

CAO Yingjun
Assistant Professor
Department of Computer Science & Engineering, UC San Diego

The class, Foundation of Data Science, is designed to be a freshman level data science class that focuses on the fundamentals of data science with some primary introductions of basic machine learning algorithms near the end of the class. Instead of focusing on the theory of machine learning and data analysis, we will get started with data analysis directly. The course content is primarily based on the undergraduate course ‘The Foundations of Data Science from UC BERKELEY’.

Dr. CAO Yingjun received his PhD in Computer Engineering from Duke University (Durham, NC, USA). His primary research interest is Computer Science Education with a focus on collaborative learning. He is also involved in more traditional research on network data analysis and distributed learning. Dr. CAO has been teaching in the Department of Computer Science & Engineering at the University of California, San Diego since 2018.

Understanding Mathematics

YING Jiangang
Professor
School of Mathematical Science, Fudan University

This course aims to provide an introduction of fundamental concept and analytical tools in mathematics for undergraduate students majoring in mathematics, sciences, engineering and economics. This course contains basic ideas and knowledge in number theory, calculus, analysis, linear algebra, differential equation and probability. Part of the results will be given a rigorous proof to show you what real mathematics is. To take this course, students are only assumed to have a good command of knowledge of elementary mathematics included in high school and minimum knowledge of undergraduate mathematics.

Prof. YING Jiangang obtained his PhD in mathematics from the University of California San Diego, and his Master and Bachelor in mathematics from Nankai University. He worked at Zhejiang University (1993-2001) and has been working at Fudan University since 2001. He has been teaching calculus, ODE, linear algebra, probability and many others in English.

Frontiers in Materials Science

LIANG Ziqi
Professor
Department of Materials Science, Fudan University

This course is designed for students to learn about the contemporary frontiers of materials science fields with a goal of expanding their knowledge scope, advancing their capability of scientific report and presentation, and establishing their basic knowledge of research areas.

Prof. LIANG Ziqi received his PhD from the Dept. of Materials Science and Engineering, the Pennsylvania State University, Master from the Dept. of Chemistry, the University of California at Riverside and Bachelor from the Dept. of Polymer Science and Engineering, East China University of Science and Technology & Shanghai Jiao Tong University. He worked at the University of Cambridge (2006-2008) as postdoctoral associate and National Renewable Energy Laboratory as postdoctoral researcher. Dr. LIANG has published more than 50 academic papers and received several awards on academic performance.

<tbody>
<tr>
<td>Chinese Legal Culture</td>
<td>Shi Daxiao</td>
<td>Associate Professor, Fudan University Law School</td>
</tr>
<tr>
<td></td>
<td></td>
<td>This course will examine the spirit of Chinese law from a historical perspective, with a particular emphasis on its political context. We will explore the early transition of Chinese politics and law by 2nd century BCE (including doctrines of Confucian and legalist schools), development and spirit of imperial codes, mechanism of judicial administration in criminal and civil justice, local mediation, and family law.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Prof. Shi Daxiao obtained his undergraduate and postgraduate degrees from Peking University, PhD in Foreign Legal History from Peking University Law School. His research interests include the history of foreign legal systems, the history of Western legal thoughts, and jurisprudence. He has translated classic works of foreign legal history such as European Law Past and Future: Unity and Diversity in Two Thousand Years and Common Law Tradition.</td>
</tr>
<tr>
<td>IPR in China</td>
<td>Wang Jun</td>
<td>Professor, Fudan University Law School</td>
</tr>
<tr>
<td></td>
<td></td>
<td>This course provides an introduction to Chinese Intellectual Property Law, and an in-depth survey of Chinese Legal Tradition &amp; Legal Philosophy on a historic-cultural analysis basis. The students will also learn the fundamental rules of cultural-generic application of laws and regulations in China, helping students gain a better understanding of Chinese legal culture as part of business environment. With the focus on Copyright Law, Patent Law, Trade Mark Law, and Legal Protection of Trade Secret, doctrinal hermeneutics and case-analysis will be applied in each part of the course. SME’s IP strategy, the enforcement of IPR and dispute settlement will be discussed in the class.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Prof. Wang Jun joined Fudan University Law School after he graduated from Peking University in 1984. He received his master degree on Civil Law &amp; Civil Procedure from Fudan University in 2003. Prof. Wang has been working as a visiting scholar of the University of Konstanz and guest speaker of MBA program of the University of St. Gallen. He has been a registered lawyer since 1994, focusing on IP proceedings and civil litigations. He is also an arbitrator in the Arbitration Committee of Jing-Hua Municipality, Zhejiang Province.</td>
</tr>
<tr>
<td>Chinese Folk Dance</td>
<td>Feng Ping</td>
<td>Associate Professor and Head Coach of Artistic Sports Team, Fudan University</td>
</tr>
<tr>
<td></td>
<td></td>
<td>This course will focus on the teaching of two types of Chinese folk dance: long-sleeve dance and peacock dance, including their historical and cultural background as well as the basic moves. Students will practice the basic dance techniques and will learn an excerpt from a performance of each of these two types of dances and release for the performance at the farewell party.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Prof. Feng Ping is highly experienced in Chinese folk dance and has studied Chinese folk dance for many years. He was the chief choreographer of the theatrical show of Chinese folk dance (Yi ethnic minority) Axi Dancing in the Moonlight (A Xi Tiao Yue) and has much experience in stage performance and choreography.</td>
</tr>
<tr>
<td>Chinese Kongfu</td>
<td>Kong Fanhui</td>
<td>Assistant Professor, Department of Physical Education, Fudan University</td>
</tr>
<tr>
<td></td>
<td></td>
<td>This course aims to introduce Chinese traditional culture to students through Chinese Kongfu training experience, and improve their physical fitness. The students will learn the basic self-defense, and how to be a winner of Jing (Spirit), Qi (Air), and Shen (Concentration of Mind) in Chinese Kongfu.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Prof. Kong Fanhui received his master degree from Beijing Sport University, one of the top 5 sport universities in China. He was an outstanding professional athlete, and won 33 gold medals, 9 silver medals and 4 bronze medals, including 4 gold medals from world class competitions, during his 22-year career. He was awarded National Master Sportsman, and at Sixth Grade of Chinese Kongfu. He is also a National First Class Defender of Chinese Kongfu and the fifth-generation successor of Xingyi Quan. He is good at more than 20 different types of Chinese Kongfu, and has given performances at some of them in national foreign exchange activities. He is the coach of Fudan Kongfu Team, and his students have won 6 gold medals, 2 silver medals and 2 bronze medals in the national competitions.</td>
</tr>

</table>
I came here with my brother. We’ve both had a wonderful time here. We’ve got to learn a lot of new things. The teachers have been super helpful, super friendly as well as very knowledgeable about all the topics that we’ve been learning. Our Chinese has also drastically improved. My brother and I are from Myanmar and we are both very proud to experience how China’s influences are growing around the world with other international students here at Fudan.

WILLIAM LUNDING (Denmark, 2018): I come from Denmark but I study in London, England. This has been a much more substantial experience than I could have ever imagined. Though time seems to pass really fast, we actually manage to achieve so much! I found my favorite course was International Law. My professor, Zhang Ningen, was super helpful. I always had the impression that he was there to support us. He was always very clear about what he wanted us to learn. As an International Relations student who is interested in management and arts, it was also a really intensive courses and the professors are really helpful and supportive. They always send the announcements and important notices to us in time so that we don’t have to worry about missing important events.

MARINA CORRALES FURTADO DE OLIVEIRA (Brazil, 2017): I will definitely recommend them to come here because I believe it is a once-in-a-life opportunity to get to know the Chinese culture with your international friends. Actually there are people from all over the world living with you and discovering this super-rich culture country. We have very good professors also from all over the world. It’s very interesting.

RANA LIU (Canada, 2017): To sum up the Fudan International Summer Session in one word, it is amazing. It was really crazy. It’s one-month really intensive courses and the professors are extremely well-trained. I am someone who is interested in management and arts. It was also a great opportunity for me to go out in Shanghai to explore the city.

MERLE CAMILLA SCHULKEN (Netherlands, 2017): I chose Fudan Summer Session sort of out of curiosity, to be honest. I have never really had a course on China in university so I am definitely not a China expert. The only thing I knew was from the news. Fudan offers a wide range of courses from all kinds of disciplines that you can choose, also language courses and sports courses. The summer session just seemed like a perfect opportunity to get some insights into how living in this country actually is and what the people are like.

ROBERT SCANLON RAMJ (USA, 2017): I feel that I have been beyond fulfilled of this because it has gone far beyond my expectations in terms of exposures to the language and the culture. I think anybody that comes here should step out of their major and make progress to take something that will give them new perspectives on China. Even more it is the people I have met in this program. The most striking thing to me about the program is how friendly the international students are.

EVAN BUDD (USA, 2016): The most striking thing to me about the program is the people I have met in this program. I also learned a lot about the Chinese business environment and modern economy through my courses.

ANA PATRICIA (USA, 2015): I really enjoyed this summer program! Not only did I get to study in one of the most prestigious universities in China for a whole summer, but I also got to meet a lot of international friends who have the same interests as me. I learned about Shanghai and how beautiful it is and have had such a great time in the extra-curricular activities, such as the acrobatic show and making jiaozi. This really is an experience I will never forget.
1. International Students Dormitory (for holders of foreign passports containing a valid X visa or residence permit for study)

International Students Dormitory is composed of a main building and several supplementary buildings. The cafeteria and the Gym are directly behind International Students Dormitory.

The main building located northwest of Fudan campus is a 23-story building with 728 rooms in total, including 582 single rooms and 146 double rooms. The lobby of the main building includes a reading area, mail boxes and a 24-hour reception desk service. From the 2nd floor to the 20th floor, each floor is equipped with 2 kitchens at both ends of the corridor. The kitchens are equipped with an induction cooker and an automatic water boiler. All rooms in the main building are equipped with a balcony, an air-conditioner, a private bathroom and internet access. The main building has elevators.

The supplementary buildings consist of 8 identical 7-storey units, which altogether have 448 single rooms. Each floor has two apartments, and each apartment has 4 single rooms, 1 sitting room and 2 shared bathrooms. Each of the single rooms has a balcony, an air-conditioner and internet access. Please note that the supplementary buildings have no elevators.

Foreign students can stay at International Students Dormitory and you will find more about reservation in the handbook, which will be emailed to you when you are recruited. Please note that a single room in the main building with a private bathroom is not guaranteed. The quantity and types of dorm rooms provided by the university will be based on the actual situation in June 2019.

### Dormitory Fees:

</tbody>
</table>

Electricity: Each room will have 200 kilowatts of free electricity upon check-in. We advocate an awareness of energy conservation. If electricity runs out in your room please go to the reception for more and it will be free. There is no refund for electricity.

Water: If you stay at a supplementary building, you will need to purchase a water card to take showers. The cost is about 1-2 yuan per day.

2. Harbour (for students from mainland China only)

It is privately-run and provides single rooms. The room charges range from 3500 yuan to 4500 yuan per month. The Harbour building of the Fudan community located at 2502 Songhuajiang Rd. is very close to the South Dorm of Fudan University. You can download the app to contact them for reservation or inquiries.
3. Unijia (for both foreign students and Chinese students)

It is privately-run and provides single rooms and double rooms. The address is 173 Handan Rd, which is very close to Crowne Plaza Fudan, about 8 minutes’ walk to the 6th teaching building of Fudan where most of the classes will be. Please visit the website www.unijia.net for detailed information.

4. Tongzhou Hotel (for both foreign students and Chinese students)

Tongzhou Hotel is a 6-storey building right opposite to the East Gate of Fudan University. The address is 428 Guoding Rd. There are altogether 32 rooms and the room charge of a double room is CNY 200-230 per day. The contact number is 86-21-65110356.
