LEARNING
THE WORLD
CONNECTING
THE POSSIBILITIES
The International Relations Office (IRO) works with more than 300 partner universities in 50 countries around the world to send you on exciting international programmes. Our wide-ranging spectrum of international summer programmes (i-SP), internships (i-Intern), research attachments (i-RAP) and university network programmes provide stimulating opportunities to gain the skills required to be a future-ready graduate. Innovative programmes such as our Study Trips for Engagement and EnRichment (STEER), take students to emerging markets such as Latin America and the Middle East to explore, together with a faculty member, issues and themes associated with a particular region. During your undergraduate years, these programmes will hopefully provide the opportunity for you to experience student life in a foreign country, pick up a new language, experience different cultures, overcome novel challenges, make new friends and ultimately become global citizens! Peruse these pages to find out where you can go, what you can do, and how you can make informed choices regarding your study abroad options!

STUDENT EXCHANGE PROGRAMME (SEP)

ABOUT

SEP is an opportunity for students to spend one or two semesters studying at a partner university; earning credits towards their NUS degree, while continuing to pay NUS tuition fees. SEP is a chance for students to experience a different academic culture, live in a foreign country and possibly learn a new language! Students can choose from more than 300 partner universities in 50 countries, either under a University-wide (across participating Faculties) or a Faculty-level (specific to a particular School or Faculty) Exchange arrangement.

SEP is about strengthening the bonds we have with each other through the challenging moments and fun times, and rediscovering my Singaporean identity.

I am now more appreciative and proud of Singapore’s achievements.

Tang Jet Yang Daniel
NUS Business School,
SEP to Università Commerciale Luigi Bocconi, Italy
ELIGIBILITY & APPLICATION PROCESS

All full-time NUS undergraduates are eligible for SEP, if they:

• complete at least two graded semesters of study at NUS.
• attain a Cumulative Average Point (CAP) of at least 3.0 on the 5-point scale, and no ‘C’ grade (grade point of 2.0) in any module (at the discretion of faculty/department).

Students are ineligible if they are:

• scheduled for their final-year projects or internships/industrial attachments.
• possess adequate financial resources to support living expenses throughout the duration of SEP (approximately S$5,000 – S$15,000 per semester, depending on the cost of living in the SEP destination).
• in their final semester of study.
• receiving certain scholarships with restrictions on overseas study (at the discretion of scholarship awarding body).
• foreign nationals applying for partner universities that are located in their home country (at the discretion of faculty/department/host university).

HOW TO APPLY

• Plan for SEP as early as you can. Check IRO’s website, reserve your electives modules to be as flexible as possible in your study plan for your SEP semester(s), research partner universities and work out a budget.
• Apply online during the application period which generally runs between September to April (actual dates differ depending on your Faculty). Please check IRO website for more details.

• Contact your Faculty’s SEP coordinator(s) for queries on SEP application dates, eligibility, module mapping, credit transfers, withdrawals and application status.

Considering SEP to China?

Did you know...

- Students on SEP to C9 League universities in China can apply for the Chinese University Study Awards (CUSA) valued at S$3,000 for each award (12 awards per academic year).
- Students on SEP to Peking University and Tsinghua University can apply for the NUS in Asia SEP Awards valued at S$8,000 for each award (6 awards per academic year).

During my exchange to Duke University, I joined an Alternative Fall Break Program and went to Apopka, Florida for a service learning trip at Hope Community Center. Together with my fellow Duke students, we conducted a workshop for the immigrant women in the community. The inspiring and reflective experience will stay on with me for the rest of my life.

Ying Jun (top row, third from left) with the staff of the Hope Community Center and fellow friends from Duke, capturing their vibrant and fun experiences in front of a mural in the community center, painted by the members of the community.

International Internships (i-Intern)

To prepare NUS students for the demands of an increasingly globalised economy and interconnected international community, IRO offers i-Intern for students to expand their knowledge and hone their skills in a cross-cultural workplace setting. Students are exposed to international best practices at the workplace and career development opportunities in diverse industries, companies and non-profit organisations. These programmes are generally held during the NUS vacation period from May to August and December to January. A longer internship for a full semester may be possible.

International Relations Office
Students who are selected to participate in NUS-approved international internships (including IRO-administered, self-sourced and faculty-administered programmes) may receive up to S$300 per week* via the NUS International Internship Award and IE Singapore’s Young Talent Programme.

*Terms and conditions apply.
INTERNATIONAL SUMMER/WINTER PROGRAMMES (i-SP)

NUS students can participate in i-SP offered by partner universities and global university networks of which NUS is a member. They allow students to explore and cultivate a deeper appreciation of the culture and lifestyle of the host country through opportunities for personal development and independent travel. Some i-SPs also allow students to explore non-traditional countries. These programmes are generally held during the NUS vacation period from May to August (summer) and December to January (winter).

INTERNATIONAL RESEARCH ATTACHMENT PROGRAMMES (i-RAP)

Ong Yik Sin Taylor, Faculty of Science
i-RAP with King’s College London, UK

IRO offers opportunities for students to broaden and enhance their undergraduate research experience through attachments under the mentorship of top researchers at renowned universities around the world. Students will have the chance to be immersed in another culture, obtain hands-on laboratory experience and conduct research in world-class facilities. These programmes are generally held during the NUS vacation period from May to August.

INTERNATIONAL SPECIAL PROGRAMMES

STUDY TRIPS FOR ENGAGEMENT AND ENRICHMENT (STEER)

The NUS Study Trips for Engagement and EnRichment (STEER) are programmes designed to familiarise students with the diverse socio-cultural-economic environment of new and fast-evolving regions through a mix of classroom-based learning and experiential site visits. Inaugurated in December 2010, the STEER programmes have expanded to many countries in Asia, Europe, the Middle East and Latin America.

NUS STEER programmes have thematic curriculum that help our undergraduates break existing mindsets about these emerging regions through participation in an immersive educational and cultural experience.

Countries visited previously:
- Brazil
- China
- Hungary
- India
- Kazakhstan
- Myanmar
- Poland
- Qatar
- Saudi Arabia
- Sri Lanka
- United Arab Emirates
- Vietnam

Countries to be included in December 2016:
- Cambodia
- Costa Rica
- Oman
- Qatar
- India
- United Arab Emirates

ELIGIBILITY & APPLICATION PROCESS

- Applications generally open in January to May and May to September for STEER programmes held between May and July and between December and January, respectively. Students should look out for an announcement from their faculties and on the IRO website http://www.nus.edu.sg/iro/opps/steer/index.html.
Through this STEER trip, I learnt the various factors to consider when analysing an emerging market and ways in which I can hone valuable communication skills. I hope other students will be able to take part in this enjoyable experience so that they will be able to benefit as much as I did.

STEER Kazakhstan

The STEER Indonesia trip to South Sulawesi, Makassar, definitely revealed to us a side of Indonesia that we seldom appreciate. We are truly thankful for such an opportunity to understand Indonesia better and build stronger relationships with our neighbours.

The best parts of STEER Europe 2016 were the memorable learning experiences and new friendships formed among local students, professors and foreign students.

The experiences, knowledge and skills gained from the STEER Kazakhstan programme have opened a gateway for me to the Central Asian region. STEER offers an abundance of career opportunities and the promise of exciting prospects. Undoubtedly, the entire programme has impacted me positively to pursue a career beyond Singapore and to be at the bridgehead forging business and economic links between the two.
TEMASEK FOUNDATION LEADERSHIP ENRICHMENT AND REGIONAL NETWORKING (TF LEaRN) PROGRAMME @ NUS

The Temasek Foundation Leadership Enrichment and Regional Networking Programme @ NUS (TF LEaRN Programme @ NUS) aims at grooming the next generation of Asian leaders by providing opportunities for cultural exchange, networking, community engagement and leadership development. Students participate in either one of the following two periods: (i) the Student Exchange Programme or (ii) the NUS Overseas Colleges programme in Semester 1 (Aug-Dec) or Semester 2 (Jan-May) to partner universities in Southeast Asia and Asia (China, Hong Kong, India, Japan, South Korea and Taiwan).

ELIGIBILITY & APPLICATION PROCESS

- Applications usually open in March via the IRO website http://www.nus.edu.sg/IRO/opps/others/out/tflearn/index.html. Eligible students will be emailed the link of the application form.

The eligibility criteria are:
- Full-time undergraduates who are going on exchange to partner universities in Southeast Asia and Asia (China, Hong Kong, India, Japan, South Korea and Taiwan)
- Singapore Citizens or Singapore Permanent Residents
- Possess a Cumulative Average Point (CAP) of at least 4 (out of 5)*
- Possess an interest in community service and have served in leadership positions

*DID YOU KNOW...

- Students participating in the TF LEaRN Programme @ NUS will receive a scholarship of S$5,000 – S$7,000 from Temasek Foundation.
I have actively encouraged some of my friends in Thailand to apply for the TF LEaRN Programme @ NUS so that they could experience the benefits of this programme. The programme has empowered me to go beyond my boundaries and allowed me to play a part in building the foundation for an integrated region of the future.

I really appreciate Temasek Foundation for giving me this opportunity to take part in the TF LEaRN programme. I have learned a lot from this out-of-classroom experience. After doing volunteer work in Shanghai, I realised how satisfying it is to think for and to help others, and hope to be more involved back in Singapore. I will definitely recommend this programme to my peers at NUS.

The Sino-Singapore Undergraduate Exchange (SSUE) Programme is a prestigious programme spearheaded by the respective Ministries of Education (MOE) of Singapore and China. It is the only G-G (Government to Government) Tertiary Exchange Programme between Singapore and China. The programme was initiated in 2002 by Singapore’s then Prime Minister Mr Goh Chok Tong to provide an avenue for cross-cultural exchange between local university students and selected Chinese universities. The programme aims to instil Singaporean students with a global perspective and an enhanced understanding of China and its potential. It also exposes students from China to various aspects of Singaporean life, education and culture. The programme consists of two legs – the first in China (May), followed by Singapore (July).

SSUE

// The SSUE programme has benefitted me in various platforms. It was my personal decision to befriend the people we met on this trip, scale relational hardships and brave novel food and adventures - that made the trip really meaningful to me. If you enjoy actively forging new friendships and have any interest in China, this programme will give you all the opportunities that you can ever wish for. //
ELIGIBILITY & APPLICATION PROCESS

• Application generally opens in early January. Students should look out for an announcement from their respective faculties and the IRO website. Applicants must be Singapore citizens or permanent residents (non-PRC nationals). Please refer to the SSUE webpage for the eligibility requirements and application details http://www.nus.edu.sg/IRO/opps/others/out/sinosg/index.html.
The Yale Visiting International Student Program (Y-VISP) is an honours programme at Yale University, designed for undergraduates from partner institutions. Selected students will join the Yale undergraduate community for a full academic year (junior year), enrol in Yale undergraduate courses and live with Yale students in one of 12 residential college communities. They will also participate in extracurricular activities available to all Yale undergraduates.

"I took a lot of writing classes at Yale expecting to write Western stories like everyone else, but ended up talking about Singapore at every chance I got. My professors and classmates enjoyed my sharing and I’m glad that I was able to show them new ways of seeing the world just as they widened my own horizons."

**ELIGIBILITY & APPLICATION PROCESS**

- The programme is open to students from selected faculties who are currently in the second year of study (will go to Yale in the third year). Please refer to [http://www.nus.edu.sg/iro/opps/others/out/y-visp/index.html](http://www.nus.edu.sg/iro/opps/others/out/y-visp/index.html) for the list of eligible faculties, details on the programme, selection criteria, application process, financial support and other information.
FINANCING YOUR SEP

SEP is a great opportunity for students to experience studying in an overseas university without worrying about additional tuition fees of overseas partner institutions. During SEP, students continue to pay NUS tuition fees, but apart from this, students must ensure that they have the financial means for other expenses like airfare and living costs during their SEP abroad. Students should consider the affordability of various SEP destinations when planning their exchange semester(s), as the cost of living varies from cities to cities.

To help students alleviate the financial burden of participating in SEP, a number of financial assistance schemes are available for students to apply.

The NUS International Relations Office (IRO) fosters partnerships with premier institutions around the world to enhance NUS’ standing as a world-class institution. In tandem with NUS’ vision of becoming a leading global university centred in Asia, IRO (established in 1996) has developed meaningful international engagements with many peer institutions and fostered interactions and collaborations in education, research and technology that benefit our students, staff and stakeholders. Our partners are higher education leaders from all over the world, with whom we share international standards and best practices in order to foster a sustained culture of excellence on our own campus. Besides the Student Exchange Programme (SEP), IRO also works with NUS faculties and schools on other overseas attachments, including International Summer Programmes (i-SP), International Internships (i-Intern), and International Research Attachment Programmes (i-RAP).
