2. Watch the video *Lux Lumina* by Artist, *Filippo Sciascia*.

The artist is experimenting with ways to capture and transfer light into his works.

- a. What is your impression of Light in the video?
- Light blocks sight
 - Light helps to explore various details
 - Light creates an atmosphere of uncertainty and mystery
 - Light makes you feel secure
 - Light makes a space look bigger
 - Light makes you feel disoriented and lost

NUS MUSEUM

- b. Invent your own statement about Light .
-

2. In every age, painters have applied various methods to capture and transfer light onto canvas. Become one of such artists. Find an object (a vase, a glass or any other object) and place it the way that you can see sun light falling on a part of it. Sketch the object with the light on it.

We hope that you have enjoyed yourself. Thank you for visiting our Museum!
