

Wen-Pai Lu, Ph.D.
President, Silicon Valley-China Wireless Technology Association

Dr. Lu is the President of Silicon Valley–China Wireless Technology Association (SVCWireless), and was the chair of the 2004 SVCWireless Annual Conference. The mission of SVCWireless is to facilitate learning, education, networking and information exchange for member professional development, and to allow entrepreneurs and industry leaders to explore idea exchange for wireless business and development opportunities both in US and the Asia.

With over twenty years of data communications, telecommunications as well as wireless communications experiences, Dr. Lu has been a senior network architect, principle consultant, project leader, customer solutions manager, researcher and developer working in renown labs and companies, such as Cisco, Nortel Networks, Bay Networks, GTE Wireless, BellSouth Science & Technology, and Bell Laboratories. His expertise spans across both enterprises and service providers. He also holds several world class security and industrial certifications, such as NNCNA¹, CISSP², GSEC³, GIPS⁴.

Dr. Wen-Pai Lu had been very active in many standard committees, such as Mobile Web Services Group in Open Mobile Alliance (OMA), a co-chairman in Proof of Concept (POC) and in architecture working groups in Mobile Wireless Internet Forum (MWIF), Frame Relay Forum, ATM Forum, and FDDI (ANSI X3T5) groups. He was the founder of the LAN Security Working Group (IEEE 802.10 SILS) developing security standard for IEEE 802 LANs and MANs and was serving as the editor for 802.10a. In ATM Forum, he was an ATM Forum Ambassador for LANE and MPOA.

He has published over 16 technical papers in the technical journals as well as in the technical conferences with three distinct papers particularly published in the IEEE technical journals such as Transaction on Communications, and Transaction on Software Engineering.

¹ NNCNA – Nortel Networks Certified Network Architect

² CISSP – Certified Information System Security Professional

³ GSEC – Global Information Assurance Certification - General Security Essential

⁴ GIPS – Global Information Assurance Certification - General Intrusion Prevention System
