

March 8 onwards

## **WALLPAPER\* HANDMADE RETREAT**

Industrial design graduate Edmund Zhang may not be a household name yet, but he is someone to watch.

In fact, Zhang was chosen by Wallpaper\*, the design and lifestyle magazine, to create a product for its Handmade exhibition, which features unique one-off

pieces made by talented young designers and makers from around the world.

The National University of Singapore graduate will debut his Squeezy lamp, a desktop LED light

that illuminates with a squeeze and gradually dims to a pleasing, therapeutic glimmer.
