

3.2 Coursework Programmes

Aimed at working professionals, our coursework (taught) programmes are designed for university graduates who wish to advance their knowledge and careers in their chosen fields of specialisation.

Admission for a Master of Science programme requires a Bachelor's degree with honours or its equivalent from a good University, in an area related to the intended programme of study; or a Bachelor's degree with a relevant NUS [Graduate Certificate](#) with a minimum CAP as imposed by the Host Department of the intended programme of study. Candidates should preferably have had a period of relevant work experience after obtaining their first degree. Candidates with other qualifications and achievements deemed to be suitably prepared for the programme of study may also be considered.

Coursework programmes of study, well chosen, enhance future career prospects and have been a vital part of many of our students' career plans.
