

3.3.2.2 Workload

1. Minimum workload: 18 MCs per semester. Students are only allowed to read less than 18 MCs in their graduating semester or when they are undertaking industrial attachment. Recommended workload: 20 MCs per semester.
2. Existing students who wish to read more than 23 MCs must have a CAP of at least 2.00 while students who wish to read more than 26 MCs must have a CAP of at least 3.20.
3. Newly-matriculated students pursuing a single degree are encouraged to read a maximum of 23 MCs in their first semester of study unless otherwise approved by the Science Dean's Office.
