3.1.1 Minor in Public Health

The Minor in Public Health is offered to all NUS undergraduates who want to develop the knowledge, skills and approaches needed to understand and address today’s public health challenges in Singapore, Asia and the world.

The Minor is designed to empower students to improve the health of not only individuals but that of entire communities, and prepare students for a career in an organisation engaged in Public Health work.

Curriculum Requirements:

24 modular credits (MCs) of the modules detailed below are required for the Minor in Public Health:

**Essential Modules (12 MCs)**
