

3.4.1 Leadership Programmes

The leadership certificate is a multi-year sequence available to every student to learn and apply leadership skills. Students engage in a series of workshops, other experiential and service opportunities, as well as student-led projects throughout their time at College. They will also be able to access unique and curated programming to hone their skills and practice.

Students who undertake the certificate can expect to gain clarity over personal values and purpose, develop critical life skills and perspectives, receive one-on-one coaching and feedback on performance. More details about the certificate can be retrieved [here](#).
