BOLDLY REACH
THE NEXT LEVEL,
IN NUS
FOR POLYTECHNIC STUDENTS
2012–2013
A LEADING GLOBAL UNIVERSITY CENTRED IN ASIA, INFLUENCING THE FUTURE

A leading global university centred in Asia, the National University of Singapore (NUS) offers a global approach to education and research, with a focus on Asian perspectives and expertise. The NUS community comprises over 25,000 undergraduate students and 8,000 graduate students from more than 100 countries, enriching the community with diverse social and cultural perspectives, making campus life vibrant and exciting.

Standing as the foremost and most prestigious University in Singapore, and consistently ranked among the world’s top universities by the Times Higher Education ranking and among the top in Asia in the Shanghai Jiao Tong University rankings of world universities, NUS continues to keep its position as a powerhouse of technology and innovation that creates new knowledge, ideas and breakthroughs. Indeed, building on a tradition of excellence and commitment towards achieving greater heights, NUS is geared towards moulding into one of the world’s premier universities.

"[We] spur our students to take off and soar; to read the water and to boldly go where no one has gone before."

- Professor Tan Chorh Chuan, NUS President

State of the University Address 2010
A GLOBAL EDUCATION WITHIN YOUR REACH

An NUS education offers different learning dimensions – multi-disciplinary, entrepreneurial, self-directed and experimental learning. It includes a broad-based curriculum underscored by multi-disciplinary courses and cross-faculty enrichment, as well as special programmes which allow students intellectual freedom, space and scope to explore their areas of interest and provides pathways to reach greater heights. We offer a diverse range of undergraduate courses by our 14 schools and faculties of varying disciplines:

- Architecture
- Arts & Social Sciences
- Business Administration
- Business Administration (Accountancy)
- Computer Engineering
- Computing (Computer Science courses)
- Computing (Information Systems courses)
- Dentistry
- Engineering
- Bioengineering
- Chemical Engineering
- Civil Engineering
- Electrical Engineering
- Environmental Engineering
- Environmental Studies
- Industrial & Systems Engineering
- Material Science & Engineering
- Mechanical Engineering (with specialisation in Aeronautical Engineering)
- Industrial Design
- Law
- Medicine
- Music
- Nursing
- Pharmacy
- Project & Facilities Management
- Real Estate
- Applied Science (Food Science & Technology)
- Science (Chemistry)**
- Science (Computational Biology)
- Science (Life Sciences)
- Science (Physics)

** Streaming of Applied Chemistry track will only be carried out after Year 1.

There are many specialisations in each course. Please visit the faculty websites for more details.

To give our graduates a competitive advantage to thrive in today’s globalising world, we offer a broad spectrum of globally-oriented curricula and programmes such as joint and double degree programmes with leading partner universities around the world. With this diverse array of programmes aimed at developing quality of mind, strength of character and global perspectives, our students are able to shape their own NUS experience and face global challenges with ingenuity and integrity.

GLOBAL CAREER PROSPECTS

Consistently ranked among the best universities in the world, the NUS degree is widely recognised by employers around the world. NUS has nurtured generations of men and women who have gone on to make an impact in academic, business, cultural, political, science and technology arenas throughout the world. NUS broad-based curriculum and holistic approach underscored by multi-disciplinary exposure has allowed students to realise their potential and gain the competitive edge for a successful career. NUS also provides an array of professional career-related services and industrial attachments to give students the edge in today’s competitive employment market.
FLEXIBLE AND MULTI-DISCIPLINARY EDUCATION

In an increasingly globalised world with its new economy, graduates need to stand out as culturally sensitive, well-informed and articulate individuals who can learn and think for themselves. To help you become such a graduate, NUS undergraduate programmes strike a healthy balance of depth and breadth that would satisfy both the specialisation needed for a subject major and the broader expectations of university education. In this way, you are not just adequately equipped for higher studies, you are well-poised for a fulfilling professional life, and are equally adept in everyday living.

There are many opportunities for multi-disciplinary studies, among which are:

MINOR PROGRAMMES

A Minor Programme is a coherent course of study providing depth in a certain area outside that of the Major. It may be taken within or outside a student’s Faculty/School. The Modular Credits (MC) requirement for a Minor Programme is at least 24 MCs, of which up to 8 MCs may be used to meet the requirements for both the Minor and a Major or another Minor, subject to the agreement of the particular department/programme or Faculty/School hosting the Minor. The Minor programme will be reflected in the student’s transcript upon successful completion.

Modules satisfying the requirements for a Minor may be read as Unrestricted Electives. Breadth modules (outside a student’s Faculty) and General Education modules that are within the list of modules approved for the Minor may be used to fulfil both the Minor and Breadth/General Education requirements.

DOUBLE MAJOR PROGRAMMES

A Double Major is a single degree programme, in which a student satisfies the requirements of two Majors. It is conceived as an opportunity for students to broaden their knowledge and capacities by pursuing a second Major alongside their primary Major. The Second Major affords a significant degree of depth, although its MC requirement is set below that of the primary Major. The Second Major is a non-Honours major. It may be taken in the same faculty that offers the primary major or from a different Faculty.

SPECIALISATIONS AND MAJOR PROGRAMMES

A Specialisation provides students with the opportunity to learn more about a particular sub-discipline within their main discipline. It is very useful for students who plan to enter specific career tracks upon their graduation.

A Specialisation is a coherent programme of study that will require, from AY2008/2009, 24 MCs of distinctive modules within a Major. For students admitted prior to AY2008/2009, a specialisation typically requires between 16 and 20 MCs of distinctive modules within a Major.

A major programme allows rigorous in-depth study in an area leading to your specialisation.

Please refer to http://www.nus.edu.sg/registrar/edu/UG/curriculum.html for more information regarding the Undergraduate Curriculum Structure.

DOUBLE DEGREE PROGRAMMES

- Business Administration & Communications and New Media
- Business Administration (Accountancy) & Communications and New Media
- Business Administration and Computing (Computer Science courses)
- Business Administration (Accountancy) and Computing (Computer Science courses)
- Business Administration and Computing (Information System courses)
- Business Administration (Accountancy) and Computing (Information System courses)
- Computing (Communications and Media) & Master of Entertainment Technology (Carnegie Mellon University) [For students who are interested in this course, they should select Computing (Computer Science courses) course before selecting this programme.]
- Computing (Computer Science) and Grad Scientiae Magistri (Scientia Computatoria)(Brown University)

Besides the above customised programmes, students may also choose their own combination – the permutations are mind-boggling in our comprehensive university!
SPECIAL PROGRAMMES

At NUS, a host of special programmes is available for you to discover.

STUDENT EXCHANGE PROGRAMME (SEP)

NUS students may apply to go on student exchange (SEP) or international summer programmes (i-SP) with one of our partner Universities for up to 2 semesters. NUS students can immerse themselves in cultural discoveries, social networking and academic growth through the SEP.

Information on SEP, i-SP and international programmes can be found at http://www.nus.edu/iro/sep/out/index.html

The list of NUS partner Universities can be found at http://www.nus.edu.sg/iro/sep/partners/index.html

NUS OVERSEAS COLLEGES (NOC)

NUS believes in the entrepreneurship capabilities among our students. The NUS Overseas Colleges (NOC) is an international internship programme for our students to learn the fundamentals of business management in the dynamic setup of startup companies.

The NOC allows our students to apply for internships at a startup company in one of the 7 cities for 2 semesters while studying at our selected partner Universities in the same city:

- Bangalore, India
- Beijing, China
- Bio Valley, USA
- Shanghai, China
- Silicon Valley, USA
- Stockholm, Sweden
- Tel Aviv/Haifa, Israel

Information on NOC can be found at http://www.overseas.nus.edu.sg/

UNIVERSITY SCHOLARS PROGRAMME (USP)

NUS, being a broad-based institution of higher learning, provides our students with the opportunities to learn from diverse disciplines across 6 faculties and schools.

The NUS Scholars Programme (USP) provides a platform for students with keen intellect and a passion for learning to further develop their academic capacities through diverse academic experiences right up to designing their own modules and subject majors.

Information on USP can be found at http://www.usp.nus.edu.sg
APPLICATION REQUIREMENTS

Applicants, regardless of nationality, who have attained a Diploma from a Polytechnic in Singapore will be considered as a Local Applicant and may submit an online application during the application period.

Polytechnic students in their final semester of study can apply with their first 5 semesters’ results. Such applicants are required to submit a copy of their final semester result as soon as they are available as proof of the completion of their studies.

Applicants should ensure that their diplomas are accredited for the course(s) they apply for. They should also submit their Singapore-Cambridge GCE ‘O’ Level results or its equivalent, if available.

NUS has published the polytechnic Indicative Grade Profile and course places of the previous academic year to enable applicants to make an informed choice when applying for admission. Please refer to http://www.nus.edu.sg/oam/gradeprofile/sprogramme-igp.html for more information.

ACCREDITED POLYTECHNIC DIPLOMAS

Polytechnic applicants will be considered for admission to a course in the University if their Diplomas are relevant and accredited for the course. However, there are exceptions to this rule. Applicants with any polytechnic diploma are eligible to apply to certain undergraduate courses at NUS.

Please refer to http://www.nus.edu.sg/oam/apply/local/prerequisites/BYA-prerequisites.html for a list of accredited Polytechnic Diplomas.

COMPUTATION OF UNIVERSITY ADMISSION SCORE

Applicants will be admitted to the University based on their University Admission Score (UAS). The UAS is computed using the Polytechnic AND Singapore-Cambridge GCE ‘O’ Level results.

Under the current admission criteria, the computation of the University Admission Score is as follows:

<table>
<thead>
<tr>
<th>Component</th>
<th>Weightage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Polytechnic results</td>
<td>80%</td>
</tr>
<tr>
<td>Singapore-Cambridge GCE ‘O’ Level results</td>
<td>20%</td>
</tr>
</tbody>
</table>

In the case of an applicant who has not sat for the GCE ‘O’ Level examinations, the applicant will be assessed based on the polytechnic results, as well as any other academic and non-academic achievements presented by the applicant. The University will evaluate such applications on a case-by-case basis.

TESTS AND INTERVIEWS

Students applying for Architecture, Dentistry, Industrial Design, Law, Medicine and Nursing are required to undergo a test and/or interview. Those who are applying for Double Degree Programmes and Discretionary Admissions may also be invited for an interview. Shortlisted candidates will be notified to attend the tests and/or interviews conducted at the University.

For more information, visit www.nus.edu.sg/oam/apply/interview.htm
DISCRETIONARY ADMISSION

Up to 10% of vacancies will be set aside for consideration of exceptional candidates for admission to NUS. For such candidates, other factors besides grades will be taken into consideration.

The following are some samples of exceptional achievements that the University may take into consideration:

- Medallist in any of the International Olympiads (Biology, Chemistry, Informatics, Mathematics and Physics)
- Represented Singapore in Arts and/or Sports
- Active participation in community service and volunteer programmes
- Work experience relevant to the course applied for
- Key leadership positions in community organisations, sports and athletic clubs, etc. (outside school)

In addition, applicants can provide information on awards/honours that they have won. If candidates wish to be considered under this scheme, they should provide the details in the ‘Discretionary Admissions’ section of the online application form. They should submit supporting documents such as certificates/awards, testimonials, reference letters as evidence of participation.

MODULE EXEMPTION

Polytechnic diploma holders admitted to either 3 or 4-year programmes will be granted advanced placement credits in relevant modules for up to a maximum of 40 Modular Credits (MCs). 40 MCs is equivalent to 1 year of study. The breakdown of the advanced placement credits is as follows:

- Up to 4 MCs from General Education Module
- Up to 4 MCs from Breadth Module
- Up to 12 MCs from Unrestricted Elective Modules (outside Major)
- Up to 20 MCs from Programme Requirements

Please refer to [http://www.nus.edu.sg/registrar/edu/UG/curriculum.html](http://www.nus.edu.sg/registrar/edu/UG/curriculum.html) for more information regarding University Level Requirements, Programme Requirements and Unrestricted Elective Modules.

APPLICATION GUIDE

Applicants will need to submit an online application form at the NUS Admissions website. It takes approximately 20 minutes to complete the online form.

DOCUMENTS TO PREPARE BEFORE APPLYING:
Applicants are advised to have the following documents ready before applying:

- Secondary Education results - GCE ‘O’ Level results slip to fill in subjects and grades; ITE Certificate (if applicable); SPM results (if applicable).
- High School Education results (if applicable; especially for international qualifications).
- Polytechnic Diploma results – to count the number of grades obtained for all semesters or the first 5 semesters and/or the cumulative GPA points.
- Essay of 1,800 characters (approximately 300 words) under the Discretionary Admissions section. Applicants should craft their essay in word document before they attempt and transfer it to the online application form. This section is an opportunity for applicants to list the activities/achievements that they have been involved or attained besides their academic achievements. Applicants who have left this section empty will not be considered under the Discretionary Admissions Scheme.
- National Service (usually male applicants/if applicable) – for Date of Enlistment and Operationally Ready Date – Indicate “Registered” if they will be serving National Service after the completion of their diploma course.
- Applicants will be considered for admission to the courses they have listed in the order of their preference.

APPLICATION PROCEDURE

1. Application:
   Apply online at http://www.nus.edu.sg/oam/apply/local/applications/WYA-applications.html during the application period (1st February – 21st February 2012).

2. Payment & Document Submission:
   (a) Make payment of application fee of S$10.00 via DBS/POSB ATM, Credit Card, Internet Banking, NETS, Bankdraft or cheque. The application fee of S$10.00 is inclusive of GST. Cash payment is not acceptable.
   (b) Send a photocopied set of supporting documents by post or hand-deliver to the following:

   Office of Admissions
   National University of Singapore
   University Hall, Tan Chin Tuan Wing
   Level Lower Ground
   21 Lower Kent Ridge Road
   Singapore 119077

   Your application and the supporting documents must be submitted to us by the above closing date. Incomplete and/or late applications will not be considered. Please refer to http://www.nus.edu.sg/oam/apply/local/payments/WYA-payments.html#top on the various payment methods and/or procedures.

3. Application Status Enquiry:
   Login to the online facility at https://aces01.nus.edu.sg/uasonline/Login to check your application status. If you have posted your supporting documents and bank draft/cheque, please allow 2-3 weeks for the processing of the documents and/or payment before checking for a status update.

4. Application Outcome:
   Your application will be processed if you have submitted a complete application by the closing date. You will be informed officially of your application outcome in writing, by post between early April 2012 and late May 2012. If successful, you will receive an admissions package containing a Freshmen Guide, application forms for campus accommodation, various loan schemes together with your letter of offer.

5. Acceptance of Offer:
   If your application is successful, you are required to accept the offer online via the common acceptance platform by the stipulated deadline in the admissions package. Please note that you are only allowed to accept ONE offer online if you have received more than one offer from any of the local universities. You may submit multiple changes but only the last change received by the stipulated deadline will be CONSIDERED. No late acceptance will be entertained after the stipulated deadline given in the admissions package.
OTHER USEFUL INFORMATION

Documents to be Submitted in the Following Order:

- Complete set of polytechnic examination results (first 5 semesters if you are a current final semester student)
- Diploma-Plus (if any)
- GCE 'O' Level results (All sittings; if any)
- ITE certificate (if any)
- Additional results slip or other supporting documents (if any)
- Photocopy of NRIC (both sides), birth certificate or passport
- Medical reports (if any)

Write your name & application number on all documents.

Admission PIN:

On the online application form, you will be asked to enter an Admission PIN (8 alpha numeric characters & case sensitive). Please create a PIN of your choice and keep it confidential. Your PIN is important and can be used with your application number to access the various online facilities related to your application. Please refer to http://www.nus.edu.sg/oam/apply/local/applicationstatus/AYA-applicationstatus.html for more information.

Polytechnic Applicants who are Waiting to be Enlisted for Full-Time National Service in Singapore:

Polytechnic applicants who are waiting to be enlisted for National Service (NS) should apply during the application period so that if they are offered a course, the place will be reserved until the completion of their 2-year National Service.

Appeal After the Release of Application Outcome (Late May to Early June 2012):

Login with your application number and PIN if you wish to appeal against the admission decision of NUS. You may submit multiple appeals BUT only the LAST appeal received will be CONSIDERED. The outcome of the appeal will be released by end June/early July 2012.

If you have already received an offer from any or all local universities, you should accept one of the courses you have been offered while awaiting the outcome of your appeal. If you do not accept any course that has been offered to you by the acceptance deadline, your place will be given to another applicant.

In addition, appeals to Architecture, Dentistry, Industrial Design, all Law-related courses, Medicine, Nursing and some of the concurrent/double degree programmes (CDPs/DDPs) that require a selection interview, will not be considered, unless you have attended the required aptitude tests and interviews conducted earlier.

Visit http://www.nus.edu.sg/oam/apply/local/poly/BYA-poly.html for information regarding:

- Accredited Diplomas
- Module Exemptions
- Faculty Interview/Tests

QUALIFYING ENGLISH TEST (QET)

Upon accepting the University’s offer of admission, students who do not possess the necessary English Language qualifications will have to sit for the Qualifying English Test (QET) set by the Centre for English Language Communication (CELC).

Information on the QET exemption criteria is available at Registrar’s Office website http://www.nus.edu.sg/registrar/event/registration-qet.html

Please note that it is compulsory for a student who does not meet the QET exemption criteria to sit for the QET and that he/she will only be granted one sitting of the test.
We offer various options to assist you in financing your education in NUS, ranging from Scholarships and Bursaries to interest-free loans. Like you, we believe an investment in education is an investment for the future.

University Scholarships/Awards for Singapore Citizens

Interested applicants can apply to be considered for the following scholarships by using a common online scholarship application.

<table>
<thead>
<tr>
<th>Scholarship</th>
<th>Courses</th>
<th>Value &amp; Coverage</th>
</tr>
</thead>
</table>
| NUS Global Merit Scholarship | Any course leading to a first degree, except Medicine and Dentistry | • Tuition fees  
• Annual living & accommodation allowance  
• One-time computer allowance  
• Sponsorship for Student Exchange Programme or NUS Overseas College Programme  
• Option to enroll in the University Scholar’s Programme  
• NUS Scholar Enrichment Grant |
| NUS Undergraduate (Merit) Scholarship | Any course leading to a first degree | • Tuition fees  
• Annual living allowance  
• One-time computer allowance  
• Option to enroll in the University Scholar’s Programme  
• NUS Scholar Enrichment Grant |
| NUS Undergraduate Scholarship | Any course leading to a first degree | • Tuition fees  
• Annual living allowance  
• One-time computer allowance  
• Option to enroll in the University Scholar’s Programme  
• NUS Scholar Enrichment Grant |
| Kent Ridge Undergraduate (Merit) Scholarship | Any course leading to a first degree | • Tuition fees  
• Annual living allowance |
| Kent Ridge Undergraduate Scholarship | Any course leading to a first degree | • Tuition fees |
| NUS Sports Scholarship | Any course leading to a first degree | • Tuition fees  
• Annual living & accommodation allowance  
• Eligibility for NUS Scholar Enrichment Grant |

Scholarships/Awards for Singapore Citizens and/or Permanent Residents

Interested applicants may apply to be considered for the following scholarships by submitting separate applications for each scholarship.

- Lee Hsien Loong Outstanding All-Round Achievement Award (nomination by respective institutions)
- Lee Kuan Yew Scholarship To Encourage Upgrading (LKY-STEP Award) (for local polytechnic diploma holders only)
- University Engineering Scholarship (for local polytechnic diploma holders only)
- Khoo Teck Puat Scholarship (awarded to Singapore citizens or People’s Republic of China (PRC) citizens)

Scholarships for International Students

All applicants for admission to NUS will be automatically considered for the following scholarships, except for Dr Goh Keng Swee Scholarship and Khoo Teck Puat Scholarship where separate applications are required.

<table>
<thead>
<tr>
<th>Scholarship</th>
<th>Eligibility</th>

</thead>
</table>
| ASEAN Undergraduate Scholarship | Citizens or Singapore Permanent Residents of ASEAN countries except Singapore  
All undergraduate programmes leading to a first degree  
• Singapore-Cambridge GCE ‘A’ level  
• NUS High School Diploma  
• B Diploma from ACS (Independent) & ACS (International)  
• Local Polytechnic Diploma  
• Year 12 equivalent results |
| SembCorp Undergraduate Scholarship | Citizens of Indonesia  
Any Computing, Engineering or Science undergraduate programmes except Pharmacy  
• SMA UAN  
• Year 12 equivalent results |
| Singapore Airlines-Nepurt Orient Lines Undergraduate Scholarship | Citizens of India  
Any Computing, Engineering or Science undergraduate programmes except Pharmacy  
• Standard 12  
• Year 12 equivalent results |
| Khoo Teck Puat Scholarship | Citizens of Singapore and People’s Republic of China (PRC)  
All undergraduate programmes leading to a first degree  
• Singapore-Cambridge GCE ‘A’ level  
• NUS High School Diploma  
• B Diploma from ACS (Independent) & ACS (International)  
• Local Polytechnic Diploma  
• Gao Kao results |
| Dr Goh Keng Swee Scholarship | Citizens from Asia Pacific region  
All undergraduate programmes leading to a first degree  
• Year 12 equivalent results |

TUITION FEES

Undergraduate education at NUS is highly subsidised by the Government of Singapore which pays for the bulk of the operating costs besides the infrastructural costs. The University’s fees are reviewed and adjusted periodically to reflect the cost of providing education to students. For more information on the tuition fee payable for your course of study, please visit the Registrar’s Office website:
http://www.nus.edu.sg/registrar/edu/UG/fees.html

MOE Tuition Grant

The substantial tuition subsidy from the Government of Singapore comes in the form of a tuition grant which is administered by the Ministry of Education (MOE) and offered to all admitted students. Students who opt to apply for the tuition grant need only pay subsidised fees (also referred to as the "Direct Payment" portion of fees).

While the tuition grant is not repayable, non-Singapore citizens in receipt of it will be required to undertake a service bond by working for a Singapore-registered company for three years upon completion of their degrees so as to discharge some of their obligations to the Singapore public for the high subsidy to their university education. For more information on the MOE Tuition Grant, please visit http://tgonline.moe.gov.sg/ for the terms and conditions of the tuition grant scheme for non-Singaporeans.

FINANCIAL AID

The University is committed to ensuring that no deserving student is denied admissions because of financial difficulty. We understand the challenge of financing your University studies in today’s time and age. While you are ultimately responsible for your tuition fees and living expenses, we strive to help you tap on all the resources which you are eligible for.

All prospective and current NUS undergraduate students who meet the Financial Aid eligibility criteria will be offered Financial Aid. We recognise that a university education is a partnership involving the student, his/her family and the University; thus, Financial Aid is designed based on an average student’s expected cost of attendance consisting of tuition fee and living expenses.

Estimated Living Expenses

We estimate that full-time undergraduate students studying in NUS may reasonably incur about $6,000 to $10,000 per year. The costs have been derived based on a conservative estimate for a reasonably comfortable lifestyle. The actual amount could be higher or lower depending on individual student’s expenditure and lifestyle pattern. For more information on the cost of living in Singapore, please visit our website:

Financial Needs Calculator

This calculator is designed to help prospective students determine their annual financial needs to pursue a tertiary education in NUS. To access the calculator, please visit our website: https://aces01.nus.edu.sg/webroapsbs/jsp/FinancialNeedsCalculator.jsp

APPLICATION FOR FINANCIAL AID

Financial Aid applications open from mid-October – 1 April every year. Prospective students who require financial assistance should apply for Financial Aid during the stipulated application period after applying for admission to the University. Applications should be submitted regardless of whether an admission offer has been given by the University or whether there is an intention to apply for other financial aid or scholarships. Please visit the Financial Aid website http://www.nus.edu.sg/financialaid/ for more details on the application procedures.
