PROGRAMME DETAILS		
3	Content	<p>AUN Summer Camp at Universitas Gadjah Mada offers a different concept of summer program, in which students have the knowledge not only of theoretical teaching carried out in the classroom, but students are also given the opportunity to directly participate in the field. For two weeks, students will be involved in various activities such as public lectures, community service, and excursions. With the theme “Eco-Leadership for the Young Generation: Nurturing Sustainable Futures”, emphasizing on the importance of nurturing young environmental leaders, and inspiring a worldwide movement for sustainability. In a world where environmental challenges are growing led to eco-conscious generations, increased environmental awareness, and a renewed global commitment to protecting the planet.</p> <p>Through this program, students from around the ASEAN region can learn more about this issue and its real situation in the community. The younger generation has a very important part in the society, where their presence and role is now being more considered. By understanding various ways of nurturing sustainable futures, participants could share, if not yet implementing, their knowledge and experience when they return to their hometown to then inspire their surroundings. The program will be coached by representatives from educators, policymakers, civil society, social activists and researchers involved in a series of discussion and sharing ideas, opportunities and obstacles in the relationships between their respective spheres of influence.</p>
4	Eligibility Requirements	<p>NUS’ generic eligibility requirements apply, please see GRO website for details.</p> <p>Please refer to the host university’s requirements here.</p>
5	Application Procedure	<p>Indicate your interest via this form by 5 April 2024.
