

Notification of Grade Profiles and Degree Programme Places for Singapore-Cambridge GCE A-Level and Local Polytechnic Diploma Applicants for the Academic Year 2023/2024 NUS Undergraduate Admissions Exercise

The University provides the following notification of grade profiles and degree programme places to enable prospective applicants to make informed choices in their application for admission to NUS undergraduate degree programmes.

- Representative grade profiles¹ of the 10th and 90th percentiles of applicants offered places in AY 2022/2023 for applicants holding Singapore-Cambridge GCE A-Level qualifications are shown in [Table 1](#). The grade profiles refer to the grades scored by Singapore-Cambridge A-Level applicants in their three H2 and one H1 content subjects. For the purpose of this notification, Grade C is assumed for both General Paper (GP) and Project Work (PW) in determining the grade profiles. Please note that certain degree programmes may require grades higher than Grade C for GP. Please refer to [Table 1](#) for the Grade Profiles of the 10th and 90th percentiles of A-Level applicants offered places for degree programmes at NUS in AY 2022/2023.
- Representative polytechnic Grade Point Averages (GPA) of the 10th and 90th percentiles of local polytechnic applicants offered places for degree programmes at NUS in AY 2022/2023 are shown in [Table 2](#). Please refer to [Table 2](#) for the Polytechnic GPAs of the 10th and 90th percentiles of polytechnic applicants offered places for degree programmes at NUS in AY 2022/2023.
- The number of degree programme places taken up in NUS for AY 2022/2023 is shown in [Table 3](#). It is important to note that the number of places changes from year to year.

Applicants seeking admission in AY 2023/2024 can expect competition to be keener for degree programmes with more stringent grade requirements and fewer places. In using the tables below, please note the following:

- The grade profiles, GPAs and places may vary from year to year, depending on the number and performance of applicants and the number of places available.
- Meeting the previous year's grade/GPA scores of a degree programme does not guarantee admission to that degree programme for AY 2023/2024.
- With effect from AY 2020/2021, the grade profiles also take into account offers that were made under Aptitude Based Admissions (ABA).
- The degree programmes marked with an asterisk (*) are those where additional assessments such as interviews, selection tests, and portfolios are required.
- Certain degree programmes may have specific subject requirements. Details can be found at [NUS Admissions website](#).

For more information on the disclosure of grade profiles, please refer to our FAQ [here](#).

15 April 2023

¹ These provide an indication of the grade profiles for the majority of applicants admitted in AY 2022/2023. There could be other equivalent profiles for each degree programme. For example, a grade profile of ABC/C could be considered to be broadly equivalent to BBB/C, unless there are other pre-requisites.
